

# KAMILĖ SAMUSIOVAITĖ

STUDENT OF SOFTWARE ENGINEERING

## ABOUT

I am an energetic and ambitious person with a responsible approach to any task I undertake or the situation that is assigned to me. I am a student, so I don't have any work experience in this field, but I am eager and willing to gain it. I work great with others, and I'm good at planning my time, so I reach my goals on time. These skills helped my team to win a university's app development contest. Therefore, I believe I would be a great asset to any team.

## EXPERIENCE

### Notepad | Java, Javascript, HTML, CSS

Link: <https://github.com/Samusiovaite/Project>

A notebook app that has been developed to mark future events and store contacts of loved ones.

### BinaryTree, Sudoku, Graph realisation | C

Link: <https://github.com/Samusiovaite/C-Projects>

Made my own implementation of binary tree, Sudoku and graph which is based on neighbourhood lists using a depth-first search approach.

### Project "Hitcher" | HTML, CSS, C#, JavaScript

Link: <https://github.com/Ps-Hitcher/API>

"Hitcher" - A ride-hailing app that allows each user to find the right ride for them. The app also gives the passenger an opportunity to meet, interact and choose the driver.

Worked with front-end and tests.
